

YOU CAN SAVE A LIFE

With just one pump of
mist from Narcan®.

GIVE SOMEONE A SECOND CHANCE TO STAY
ALIVE, GET HELP, AND RECOVER.

The Overdose Prevention Act allows the ability to prescribe the opiate antidote Narcan® to those in a position to help someone else during an overdose of heroin or other opioids. The law also eliminates civil and criminal liability to anyone who administers Narcan. You can now identify an overdose and save a life!

HOW TO STOP AN OVERDOSE:

- 1 Check For An Overdose**
Shout their name, shake their shoulders.
- 2 Call 9-1-1**
If unresponsive.
- 3 Give Narcan®**
Push pump after tip is in nose. No response? Wait 3 minutes, try again.
- 4 Stay Until Help Arrives**
If breathing well, put on side. Stay and wait until help arrives.

HOW TO GET NARCAN®?

We offer free training and distribution of Narcan kits. To receive your free kit, watch the online training video and print or show your confirmation email at one of our 3 local distribution sites:
